Julian Stippig

Education of his daughter Josefina is one of the most important contributions Julian will make to her life. He would like to try to help the children, parents and teachers, and the entire St. Paul's community to thrive to become an even more venturing place. Born in Munich, Germany, he is 39 years old and will soon be a father of two. He studied at Schule Schloss Salem, and read economics and finance in the UK and US. For more than ten years he has worked as an Investment Banker (M&A for FinTech companies) in London (4 years), New York (5 Years) and HK (1 year). Since August 2015, he has been living with his wife in Jardim Paulistano and founded the Brazilian Fashion Label SISSA together with her.
