

St. Paul's School

MANIBUS POTENTIA STUDIUM ANIMIS

15th September 2015

Dear parents,

Re: HPV Vaccine

The Health Authorities have contacted us again to inform us that they will be administering the next round of HPV Vaccines in the coming weeks. They will be offering the second dose of the vaccine (for those who took the first dose in March of this year), and also the first dose to those families who are interested in taking it for the first time. The first dose is being offered to girls aged 9 to 11 years, and the second dose to girls aged 11 to 13 years who have already had the first dose. More information on the vaccine, and the benefits it offers, can be found in Portuguese [here](#).

In order to determine whether the school is able to host this service in the school's infirmary once more, and to set a date for this vaccine, we are asking parents whether they are interested in their daughters having the first or second dose of the vaccine.

Please indicate below, by return, if you wish your daughter to take the first or the second dose here at school. Please print, sign and return this slip to Heather Godwin, Administration and Communications Manager via Reception **by no later than Friday 18th September**.

Yours sincerely,

Louise Simpson
Head

HPV reply slip – please return to Heather Godwin, Administration and Communications Manager via Reception, by no later than Friday 18th September.

My daughter has not yet had the HPV Vaccine, and I would like her to have the first dose at school.

My daughter had the first dose of the vaccine in March and I would like her to have the second dose at school.
