

St. Paul's School

---

MANIBUS POTENTIA STUDIUM ANIMIS

**SENIOR SCHOOL  
SPORTS CLUBS &  
PAID AFTER SCHOOL ACTIVITIES**

*Term 1  
2015-16*

## Cricket Club

F1, F2, F3

Fun, fast-paced activities to introduce you to the game of cricket and give everyone a go. It's a bat and ball game that mixes hand-eye coordination, speed, and agility with tactics and team work.

Originally a British game, it is now played in 25 countries around the world.

<b>Day(s) and Time</b>	<b>Location</b>	<b>Max. Pupils</b>	<b>Staff</b>
Thu 15.15-16.15	Hardcourt	20	Mr Jones

## F1/F2 Boys Basketball

F1/F2

This club is designed specifically for basketball players with less than two years of playing experience and who have not yet been a member of the Junior Varsity Team. The aim will be to develop fundamental Basketball skills. Depending on the pupils' dates of birth, players will be able to enter into the Under 11 (born in 2004), Under 12 (born in 2003) or Under 13 (born in 2002) age group categories, in various local school tournaments and leagues. Pupils require a great deal of commitment and need to be hard working to take part in this club. Pupils will have a lot of fun while playing basketball.

<b>Day(s) and Time</b>	<b>Location</b>	<b>Max. Pupils</b>	<b>Staff</b>
Tue/Thu 16.00-17.30	Gym	20	Rodrigo Prado/Priscila Fogaça

## F1/F2/F3 Boys Football

F1-F2-F3

The Form 1, 2 and 3 boys will practise once a week this term. This training session will focus on developing football skills, tactics and teamwork. If you want to be part of this team, you're more than welcome. Some of you might be selected to be part of the the JV Boys team.

<b>Day(s) and Time</b>	<b>Location</b>	<b>Max. Pupils</b>	<b>Staff</b>
Friday 15.15-16.40	Field	35	Felipe Pierrobon

## F1-F2 Girls Basketball

F1/F2

This club is designed specifically for basketball players with less than two years of playing experience and who have not yet been a member of the Junior Varsity Team. The aim will be to develop fundamental Basketball skills. Depending on the pupils' dates of birth, players will be able to enter into the Under 12 (born in 2003) or 13 & Under (born in 2002) age group categories, in various local school tournaments and leagues. Pupils require a great deal of commitment and need to be hard working to take part in this club.

<b>Day(s) and Time</b>	<b>Location</b>	<b>Max. Pupils</b>	<b>Staff</b>
Mon/Wed 16.00-17:30	Gym	20	Rodrigo Prado/Priscila Fogaça

Mon/Thurs/Fri (15.20- 16.00)	Swimming pool	15	ALM/SLM

For this programming course pupils will be given an introduction to programming in an application development environment for mobile platforms such as **Androids**. The course will be divided into two parts. In the first part of the course, we will use the MIT App Inventor platform based on Blockly programming language to create simple applications. The pupils will start with programming using conditional and repeat loops as well as application design (user interface, software usability and human-computer interactions). They will also be introduced to the concepts of object-oriented programming (classes and objects). In the second part, we will use the knowledge learned by the pupils to develop an application project together. Divided into 3-4 teams pupils will learn to create applications in a team scenario. The course material will be in English.

This course is given as a paid after school activity (PASA) and as such a contractual relationship is entered into between parents and MadCode. The costs of the course is 6 monthly instalments of R\$350 per pupil and there will be a one-off enrolment fee of R\$200 per pupil totalling R\$2,300 per child per term. This will be for 18 classes.

If you are interested please contact Fabiana below. We will then contact you again before term starts to provide you with the necessary paperwork. If more than 15 pupils apply then we can create more groups.

More information about the course can be found here in Portuguese:

Day(s) and Time	Location	Max. Pupils	Staff
Wed 15.10-16.40	ITA	15	MadCode

The programming course for mobile devices II is designed for pupils who already have programming experience. We will develop a game engine (i.e. a software abstraction layer the purpose of which is to facilitate the development of games and simulations for Android) making use of the Java programming language.

Early in the course, pupils will have a brief introduction to Java language, reviewing some concepts previously learned under the area of object-oriented programming. For this, we will simulate some of physical phenomena, later introducing these mechanics into the game engine. We will also look at the use of APIs.

The course material will be in English.
